

introducing **move!**

height-adjustable spring and electric single column tables

move! standard bases

move! V-base
standard with 120° and 90° corners.

move! H-base
standard with rectangle tops, H-base is ideal for larger surfaces where additional weight capacity is required.

move! standard shapes

move! tables

Ideal for touch down and small workstation areas meant to support multiple operators each hour, day, or week. **move!** makes sit-to-stand performance even more affordable! Choose among several corner and rectilinear shapes and sizes that support different workers, equipment, or office space needs. **move!** tables ship flat packed to reduce freight costs, and are easy to assemble

New **move!** tables offer the best sit-to-stand range in a single extension column, and smoothly adjust on ball bearing glides.

move! spring

spring mechanism adjusts 26" to 45"; safety brake and locking mechanism prevents inadvertent adjustment

move! electric

electric table mechanism adjusts 26" to 45" on ball bearing glides
